Buckets for Hunger, Incorporated, wishes to give a deep heart-felt thank you to all of the individuals who played a vital role during the covid-19 pandemic. All of the medical care professionals and staff who placed their own safety and security on the line to serve others is sincerely appreciated and will not be forgotten. We are deeply grateful to the many other professionals including fire, ambulance, police and pharmacy. All other workers including cleaning crews, waste management workers, grocery and convenience store employees, delivery people, truckers, factory workers, food processing individuals, farmers, food pantry and other charity workers and volunteers are each sincerely praised and appreciated, too. They are all heroes! Buckets did everything possible to acquire photos representing as many workers serving the public during this time. We whole-heartedly apologize for any inadvertent and unintentional omission of other heroes. Buckets also thanks those individuals who allowed us to photograph them or who sent us their own pictures.

Again, we are ever so grateful. All net proceeds from calendar sales and sponsorships will go to help needy food pantries throughout Wisconsin.

The pandemic and the resulting loss of income has increased the number of people needing help to feed families.

Buckets for Hunger, Incorporated is a 501c3 charity.

Our mission is to wipe away the tears of hunger and to replace them with a glimmer of hope in the eyes of the needy.

Since 1995, Buckets has distributed over \$2.3 million to food pantries. Buckets has never had paid staff.

Buckets for Hunger, Incorporated
